## Hobbies

## Profile

Fisheries engineer graduate from INAT and certified full stack developer from GoMyCode since july 2020. i have always been passionate about technology and computer science ,therefore, I had no trouble learning how to code and understand the basics of the algorithm quickly, and with this knowledge, I managed to create several personal projects using JavaScript, **Css**, **Reactjs** / **Redux nodejs** and **mangoDb** technologies .Im versatile, and i master the different technical steps leading to the creation of a site or a web application; from frontend to backend development.

I am serious, rigorous and I like working in a team.
